THE LOGIC OF *Hegel*

THE LOGIC OF
Hegel

THE LOGIC OF *Hegel*

G. W. F. HEGEL

This is the William Wallace translation of the first part of Hegel's **Encyclopedia of the Philosophical Sciences** on logic. This is an outline of Hegel's logical system that he would use and elaborate on during his lectures, a shorter version of his earlier publication **The Science of Logic**. The William Wallace translation is very influential and famous for its clarity, although he took some liberties and does not always stick closely to Hegel's original text.

Complete audiobook read *Ryan Smallwood*.

TOTAL RUNNING TIME: 11:29:21
